

## Corrosion Coupon Rack with Flowmeter

Corrosion Coupon Rack provides comprehensive monitoring of all critical components of industrial chilled and hot piping systems, cooling tower and boilers for signs of corrosion. Available with 2 to 4 stations, uPVC and Clear PVC piping with Flowmeter.

### Compact Size – Tight Installations

- Tough Polysulfone meter body resists high temperatures and pressures
- Made in USA
- Adjustable flow rate set-point indicator
- Compact size for tight installation spaces
- 2" scale length (approximate)
- Union connection for easy installation and maintenance
- Max working pressure : 175 psig (12.0 bar) @ 21° C
- Max Fluid temperature : 100° C @ 0 PCI
- full scale accuracy : +/- 4%

Part #	Description	Dimensions (mm)
uPVC2CR	uPVC coupon rack - 2 station with Flowmeter	400 x 600
uPVC3CR	uPVC coupon rack - 3 station with Flowmeter	500 x 600
uPVC4CR	uPVC coupon rack - 4 station with Flowmeter	600 x 600
CPVC2CR	Clear PVC coupon rack - 2 station with Flowmeter	400 x 600
CPVC3CR	Clear PVC coupon rack - 3 station with Flowmeter	500 x 600
CPVC4CR	Clear PVC coupon rack - 4 station with Flowmeter	600 x 600

### Standard Features

- 2 to 4 station Coupon Points
- Flowmeter 5 to 37.5 LPM.  
Tough Polysulfone meter body resists high temperatures and pressures.
- 3/4" piping uPVC and Clear PVC (1" piping available upon request)
- Steel Safety Chain for Coupon points
- Inlet/Outlet Isolation with Union Valves
- 2-Year Warranty
