

## UV stabilized polyethylene storage tanks

Chemtrol® offers a range of chemical storage tanks designed for corrosive liquid and powders. Industrial tanks moulded in natural stabilised material allowing for both indoor and outdoor applications.

Manufactured from UV stabilized polyethylene which complies with Australian standard AS2070, these freestanding containers consist of clean smooth internal walls with 170 mm sealable screw lid, offer strength, easy access and calibrated level indicators, lighter natural colour and 110Ltr to 260Ltr in size. The lighter natural colour offers the additional feature of being able to identify the liquid level through the tank wall.

Model	Polyethylene Tank/Bund	Diameter Top/Base	Height	Screw Lid	Kg
CST110L-1	Storage tank 110Ltr	495 mm	675 mm	170 mm	6.5
CST110L-2	Storage tank 110Ltr	498 mm	696 mm	170 mm	7.5
CST210L	Storage tank 210Ltr	580 mm	935 mm	170 mm	11.5
CST235L	Storage tank 235Ltr	590 mm	865 mm	170 mm	11.2
CST260L	Storage tank 260Ltr	590 mm	1,040 mm	170 mm	13.6
CST200L	Bund 200Ltr (Natural)	856/682 mm	585 mm		17.5
CST205L	Bund 205Ltr (Black)	830/660 mm	605 mm		20

## Options

- ✓ Slow chemical mixer.
- ✓ Chemical metering dosing pump.

## Rugged design moulded tank

- ✓ Come standard with 20 mm outlet (3/4" BSP) allows for optional discharge.
- ✓ And with top flat surface to bolt down metering dosing pump or liquid mixer.
