Blue-White®

DiaFlex®

The worlds first single-layer injection molded PVDF diaphragm

Zero Breakdown • Zero Delamination

- Single piece injection molded design
- 100% in-house manufacturing
- Offered on all Blue-White CHEM-FEED models*

* Excluding C-600 and C-1500N models

U.S. patents: **10,330,094 and 11,261,857**

Take control of your chemical feed system with a diaphragm built to last

DiaFlex® Diaphragms

Designed to last the life of the pump

DiaFlex® is standard on many of our CHEM-FEED® diaphragm pumps and is designed for extra long life!

DiaFlex® diaphragms are designed with minimal maintenance in mind. In many cases, diaphragms may never need to be replaced.

DiaFlex® diaphragms have excellent chemical resistance making them the perfect choice for tough chemicals like sulfuric acid and peracetic acid.

Reference Blue-White® Warranty on Chem-Feed® pumps for detailed information specific warranties for Dia-Flex® diaphragms.

Innovative design for a longer-lasting diaphragm

Blue-White's exclusive DiaFlex® High-Performance Diaphragm is constructed of PVDF for exceptional chemical compatibility and is manufactured 100% in-house.

DiaFlex® incorporates an innovative single-layer design, rather than the multiple layers of traditional diaphragms. Because there are no multiple layers, DiaFlex® diaphragms exhibit zero breakdown or delamination, virtually eliminating field maintenance and downtime.

Exclusive to

CHEM-FEED® Metering Pumps

* Excluding C-600 and C-1500N models
